Student Name ________________________________

PeopleSoft/University Number ________________________________

This student has met with a representative of the Office of the Dean concerning reinstatement of financial aid eligibility. While this student does not meet the University standards for satisfactory academic progress and good academic standing, the dean's office considers this student to be making satisfactory academic progress and to be in good academic standing. There were extenuating circumstances that may have affected this student's academic performance.

Reinstatement of financial aid eligibility is requested for the ________________ academic year, beginning with the □ fall □ spring □ summer term.

Date __________________________ Signature of dean's office representative

The following general policies apply:

If all other eligibility requirements are met, financial aid eligibility that may be reinstated includes federal Pell grant, supplemental grant, work-study, Perkins loan, nursing loan, health professions loan, Stafford loan and PLUS loan. University funds subject to award include University of Pittsburgh grant. Eligibility for student borrowing through alternative sources will be reinstated.

Appeals for reinstatement of federal Stafford loan will be limited by individual borrowing history and federal loan limits.

Students who were awarded a University scholarship through the Office of Admissions and Financial Aid must maintain a minimum 3.00 cumulative grade point average for the scholarship to be renewed. This requirement cannot be appealed.

Students who were awarded a Pennsylvania Higher Education Assistance Agency (PHEAA) grant must meet the academic progress standards established by the Commonwealth of Pennsylvania to have the grant continued. Request for reinstatement of a PHEAA grant is not covered with this appeal. Questions concerning PHEAA grant eligibility should be addressed to the PHEAA grant manager, Office of Admissions and Financial Aid.

Any undergraduate student who enrolls for more than 10 full-time undergraduate terms and does not complete an undergraduate degree is not eligible for appeal. Undergraduate financial aid funding is limited to 10 full-time terms. Undergraduate students who enroll on a less-than-full-time basis must complete course work and degree requirements in a similar time frame, consistent with their pattern of enrollment.

The continuation of financial aid awarded by departments or organizations outside the Office of Admissions and Financial Aid are not covered under this appeal. Questions concerning such an appeal must be made directly to that organization or department.
