OVERVIEW
The Nursing Administration Minor is available to enrolled University of Pittsburgh School of Nursing graduate students pursuing education in advanced clinical specialty roles who want the opportunity to also obtain knowledge and training pertinent in management and leadership. Students should consult with their academic advisor. The minor prepares nurses to assume positions as advanced practice nurses with some management and/or leadership responsibility.

The curriculum focuses on management in complex social and operational systems for healthcare delivery. Attention is given to applying role-related knowledge and skills in diverse sites and populations, including acute care, long term care, psychiatric, and community settings. The culminating practicum is a uniquely designed mentored clinical experience that provides students with an opportunity to experience a leadership role.

CURRICULUM FORMAT
- Onsite
- Part-time (~ 2 terms)
- 12 credits (includes 180 clinical hours)

PROGRAM OUTCOMES
Graduates are prepared to accomplish the following:
- Assume leadership for clinical initiatives and outcomes within their area of clinical focus
- Develop a business case for change within their area of clinical focus
