

International Graduate Student Financial Information 2016-2017

The Office of International Services (OIS) has prepared this document to inform you of the financial requirement in order to issue your student visa document (Form I-20 or DS-2019) as an international graduate student. Once you have been admitted to your program and accepted your offer of admission, your department will notify OIS. From there, you will be contacted directly from OIS via email and will need to provide financial documentation via the My OIS online portal. More information on this process will be provided to you *after* we have received your information from your school. This document is simply to prepare you for what you will need to provide to OIS so that your visa document is issued smoothly and timely. You do not need to submit financial documentation to your school. **Please wait to send financial documentation to OIS until you have been contacted directly from OIS.**

Financial Documentation Considerations:

- Review the cost estimates (above) and the estimated length of the degree program to which you are applying. *You will need to provide financial documentation of immediately available liquid assets only for the first 12 months of study.*
 - Immediately available liquid assets would be considered a bank statement or letter, stocks/bonds available for immediate withdrawal without penalty.
 - Salary information, retirement accounts, real estate or other non-liquid assets such as automobiles, jewelry, or other personal property cannot be used to demonstrate financial support for the first 12 months but may be provided as evidence of support for subsequent years of study.
- All proof of financial support must be original documents in English. We are able to convert your home country's currency into USD. Currency used must be indicated on document.
- Documentation must be issued within the last six months, and the date the document was issued must be clearly indicated.
- Be sure to include additional funds for any dependents who will accompany you to the U.S. (\$4,160 per dependent).
- Students who have been awarded full financial support from the University of Pittsburgh covering all estimated tuition/fees, health insurance, and living expenses (Teaching Assistantship, Graduate Student Researcher, etc.) is sufficient proof of funding except to cover additional dependent expenses, if applicable.
- Students may provide proof of financial support from more than one sponsor. You will be able to submit multiple sources of financial documentation to OIS if needed. Each sponsor will need to submit a Certification of Financial Responsibility form via My OIS. Each sponsor will need to verify they are sponsoring your education and the amount they plan to provide.
- You do not need to submit financial documentation to your school. Please wait to send financial documentation to OIS until you have been contacted directly from OIS via email. You will be able to upload original copies of financial documentation through your My OIS account (my.ois.pitt.edu) after we have received your information from your school.
- Evidence of financial support must also be shown to the U.S. Consulate when applying for a visa. Therefore, you will need to have two sets of financial support documents—one to submit to the University of Pittsburgh and one for the U.S. Embassy or Consulate. Please note: digital copied submitted via My OIS are fine, but original documentation is required for the visa interview.
- Questions concerning financial requirements can be emailed to oisnew@pitt.edu.
