OVERVIEW
The RN Options provides the opportunity for registered nurses to earn a Bachelor of Science in Nursing (BSN) or
BSN with early admission to MSN (Master of Science in Nursing) or DNP (Doctor of Nursing Practice). Curricula
build upon the nurse’s strengths and experiences to expand professional knowledge and practice skills which may
provide potential career changing opportunities. Options include: (1) RN-BSN, (2) RN-MSN, and (3) RN-DNP.
The RN-BSN is offered online or onsite.

The RN-MSN and RN-DNP provide the opportunity to earn a BSN with early admission to MSN or DNP.
Applicants submit one application for admission to the BSN and simultaneous conditional admission to the MSN
or DNP. Applicants must meet admission criteria for the BSN and selected graduate program. Upon successful
completion of the BSN and graduate bridge credits (which count towards the BSN and graduate degree), students
are awarded the BSN degree and complete the remaining courses in the selected graduate program. Ultimately,
students save one year of coursework! Various online and/or onsite options are available. Students enrolled in online
programs or courses are not required to travel to campus.

CURRICULUM FORMAT

RN-BSN
Online* or onsite
52 credits / Part-time (~6 terms) or Full-time (4 terms)
Fall, Spring, & Summer Term Admission

RN-MSN
Clinical Nurse Leader (CNL)
Online* or onsite
Part-time (varies) or Full-time (~7 terms)
Fall, Spring, & Summer Term Admission

Nursing Informatics
Online*
Part-time (varies) or Full-time (~8 terms)
Fall, Spring, & Summer Term Admission

Neonatal Nurse Practitioner (NNP)
Online* (28 undergraduate & 21 graduate credits) and Onsite (~34 graduate credits)
Part-time (varies) or Full-time (~9 terms)
Fall, Spring, & Summer Term Admission
