

**UNIVERSITY OF PITTSBURGH  
SCHOOL OF NURSING**

**ACADEMIC POLICIES AND PROCEDURES FOR THE  
UNDERGRADUATE PROGRAM**

---

**TITLE OF POLICY:** UNDERGRADUATE STUDENT HEALTH EVALUATIONS

**ORIGINAL DATE:** DECEMBER 1996

**LAST REVIEWED/REVISED:** NOVEMBER 2008

**POLICY:** Undergraduate students must have a health evaluation upon admission and a health evaluation update annually thereafter.

Students will not be permitted to register or participate in clinical activities until the completed health form has been submitted.

---

- PROCEDURE:**
1. Students receive the appropriate health evaluation form from Student Services in the School of Nursing and must return it to University Health Services by the due date.
  2. Students are responsible for arranging and paying for required health evaluations.
  3. University Health Services monitors health evaluation forms for completeness and determines that the health requirements are met and that there are appropriate signatures
  4. University Health Service notifies the student if there are any deficiencies and places an academic hold, which will prevent a student from registering, on the record of any student who has not met health requirements. Once the appropriate health form and laboratory tests have been submitted, the hold will be removed and the student can register.
