

Peer Mentorship Project:

Nursing students have “Heart”, “Smarts” and “Stamina”! Unfortunately, with so many unfamiliar or challenging situations, they also have stress! Wouldn't it be great to have the support, guidance and insight of someone who has been where you are now? An experienced person who understands your concerns and who will advise and encourage you? This person is a mentor. ...Your mentor. ....A Guiding Light!

We will be having a Peer Mentorship Program that would match Freshmen and Sophomore nursing students with Junior and Senior nursing students who care so much; they are willing to volunteer time to extend a helping hand. All we need is YOU! Sign up today.
