

OBJECTIVE:

After establishing the basis for higher education, I'm looking for an opportunity to make a genuine difference to improve and advance my community. My plans include taking part in educational institutions and major health organizations as a researcher, educator, and consultant. I'm also hoping to help new graduates smoothly transition from an academic to clinical setting. Eventually, I'm confident that I will provide the best patient experience across a continuum of care.

EDUCATION:

- Master of Science in Nursing; Adult-Gero Clinical Nurse Specialist, May 2019
School of Nursing, University of San Diego, GPA of 3.95/4
- Postgraduate, one-year Cardiovascular Care Nursing Diploma 2015
- Bachelor of Science in Nursing, June 2012
College of Nursing, King Saud University, GPA 4.07/5.0

LICENSURE/CERTIFICATIONS:

- Active license from the State of Vermont as a Registered Nurse Sep. 2016
- Active license from the State of California as a Registered Nurse April 2017
- Professional registration from Saudi Commission for Health Specialties as a Specialist Nurse 2013
- Lean Six Sigma Green Belt Certification, University of San Diego August 2018
- American Heart Association Basic Life Support certificate 2018
- American Heart Association Advanced Life Support certificate 2014
- Basic Electrocardiography course 2014

EXPERIENCE:

- Research assistant at University of Pittsburgh School of Nursing Sep 2019-present
- Clinical Rotations as a CNS student at Sharp Memorial Hospital and Scrips Health Care Jan. 2018- May 2019
- Volunteered as a rescue member at Saint Michael's Fire and Rescue Jan.-May 2016
- Teaching assistant at Majmaah University May 2015 – August 2015
- Staff nurse in Cardiac Surgical ICU at King Fahad Medical City Dec. 2013-May 2015
